

MODERN ART OXFORD

Programming Policy

Modern Art Oxford's exhibition programme is devised by the gallery's curatorial team and is planned up to two years in advance, with exhibitions and projects arising from direct invitations to artists and institutions. We are rarely able to accommodate unsolicited proposals for projects and exhibitions.

While we are always interested in hearing about artists' work and new projects, we currently do not have the capacity to respond to each enquiry individually.

If you choose to make a submission please send it to programme@modernartoxford.org.uk in the format outlined below and it will be considered by a member of the curatorial team.

Submission should include:

- A short introductory letter outlining the work, exhibition or project proposed
- An up-to-date CV
- 5 -10 images to illustrate your proposal and a proposed timescale for realising the project. Please do not send any original material.

We receive a high number of submissions and therefore can only provide feedback on individual submissions that might be taken forward.
